KEEPING BUSINESS PRINTING

QUICK REFERENCE
PRODUCT & SERVICE GUIDE

YOU DON'T NEED ONE OF THESE TO KNOW WHICH LASER PRINTER PARTS YOU'LL USE MOST OFTEN.

Just use this handy guide!

THE INDUSTRY'S MOST ACCURATE, UP-TO-DATE REFERENCE FOR …

MUST-STOCK HP, CANON & LEXMARK LASER PRINTER PARTS.

QUICK GUIDES FOR

MAINTENANCE KITS, SERVICE MANUALS, PRINTER MEMORY

THE ONLY PARTS GUIDE YOU NEED, ONLY FROM THE WORLD'S LEADER IN LASER PRINTER EXPERTISE.

You don't need a crystal ball to know which parts to stock or where to find answers to your stickiest repair problems. You've got something better –

Parts Now!

Our experts have hand-selected the information you need most – everything from hot parts lists to at-a-glance kit guides, plus a quick overview of training opportunities by the pros that solve more printer problems than anyone else in the industry. Others have tried to imitate our guide, but no company can match the knowledge and experience we've put into these pages for you.

So use it with our compliments. Call us with your toughest questions, and be sure to tell us how we can make it even better for you next year.

When we look into our crystal ball,
we want to see prosperity for your business –

NOW!

THE PARTS NOW! DIFFERENCE

- **99% PARTS AVAILABILITY**
- **99% ORDER ACCURACY**
- **100% TECHNICAL SUPPORT**
- **100% DELIVERY SPEED**

PARTS NOW! KEY TO JETDIRECT CARDS

600 Series JetDirect Card

J3110A
- 10 Base T Ethernet Connector (Category 5 cable)
- This NIC is compatible and will work in any EIO slot except MFP printers

J3111A
- Local Talk
- 10 Base T Ethernet Connector (Category 5 Cable)
- BNC Connector
- This NIC is compatible and will work in any EIO slot except MFP printers

J3113
- 10/100 Base TX Ethernet Connector (Category 5 Cable)
- This NIC is compatible and will work in any EIO slot except MFP printers

610 Series JetDirect Card

J4167A
- Token Ring RJ-45 Connector
- Token Ring DB-9 Connector
- This NIC will work in any printer that is attached to a Token Ring network

J4169
- 10/100 Base TX Ethernet Connector (Category 5 Cable)

615 JetDirect cards

J6057A (615n)
- 10/100 Base TX Ethernet Connector (Category 5 Cable)
- This NIC is compatible and will work in any EIO Slot
- MFP compliant

620 Series JetDirect Cards

J7934A/G (620n)
- 10/100 Base TX Ethernet Connector (Category 5 Cable)
- This NIC is compatible and will work in any EIO Slot
- MFP compliant
- Transfer rate up to 6Mb/s

J7960G (625n)
- 10/100/1000 Base-TX Ethernet Connector (Gigabit Ethernet)
- This NIC is compatible and will work in any EIO slot
- MFP compliant
- Transfer rate up to 6.5Mb/s

630 JetDirect cards

J7961G (635n)
- 10/100/1000 Base-TX Ethernet Connector (Gigabit Ethernet)
- This NIC is compatible and will work in any EIO slot
- MFP compliant
- Transfer rate up to 1000 Mb/S

EIO = Enhanced Input Output
MFP = Multi Function Printer
NIC = Network Interface Card
Mb/S = Megabit per second

HP MAINTENANCE COUNT RESET

LJ IIIsi

Push and hold the [MENU] key until "Configuration Menu" appears in the display, go through this menu until you see "Service Message = on" turn it "off" and push the [ENTER] key.

LJ 4si, 5si

Press the [MENU] key until you see "Configuration Menu" press the [ITEM] key until you see "Service Message=off" and press the [SELECT] key the display should show "Service Message =off*"

LJ 4000/4050, 4100, 5000, 5100, 8000, 8100, 8150, Mopier 240, Mopier 320

On these printers going in to the "Configuration Menu" and turning the "Service Message" off will only clear the service message for about 10,000 pages, and then it will re-appear. To clear and reset the maintenance message power off the printer push and hold the left side of [ITEM] and [Value] and power the machine back on, "Resetting the maintenance" count will appear in the display, once this occurs you can release the keys.

LJ 4100mfp, 4200, 4300, 9000

Power off the printer, push and hold down the [SELECT] button and power the printer on. Continue to hold the button until all three LEDs come on and stay on then release the button. "Select Language" should appear in the display, press the up button until you see "New Maintenance Kit" and press the [SELECT] key.

LJ 4240/50, 4350, 9040, 9050

Power the printer off and then turn it back on. The machine will start powering up, the backlight of the display will come on and the printer will start counting its memory, this is when you want to push and hold the [SELECT] button. Continue to hold the button until all three LEDs come on and stay on then release the button. "Select Language" should appear in the display, press the up or down arrow until you see "New Maintenance Kit" and press the [SELECT] key.

CLJ 4600, 4650, 4700, CP4005, 5500, 5550

(4700 & CP4005 message will only appear when the printer is asking for a kit.)
With the power on press the down arrow button until the display reads "Configure Device" menu. Press the [SELECT] button and using the down arrow button scroll through this menu until the display reads "Resets" and press the [SELECT] button. Then press the down arrow button again until the screen reads "Reset Supplies" and press the [SELECT] button. Once you get to this menu this is where you can reset the fuser and the transfer belt maintenance life.

LJ 4345mfp, 4730mfp, 9000mfp/9040mfp/9050mfp

Turn the printer on. Once the printer starts counting the installed memory press and hold the #6 button until all three LEDs flash once and stay on. Once the LEDs stay on release the #6 button and then press the #3 button once and release it, then press the #6 key again to select "New Maintenance Kit." After this is completed the printer should reinitialize.

LJ M5025

With the printer powered on press the "Administration" button on the control panel, scroll through the menu and press the "Resets" button. Once you are to this point select "Clear Maintenance Message".

LEXMARK MAINTENANCE COUNT RESET

Optra S &SE

Hold down the [GO] and [Return] buttons and power on the printer, continue to hold these keys until "Performing Self Test" appears in the display. Once this appears, release the buttons. This will allow you to access the "Diagnostics Menu", the printer may display "80 Scheduled Maintenance." Press the [Go] Button to bypass this and this should get you in to the "Diagnostic Mode". Using the arrow keys, scroll to "Printer Setup" menu and press [Select]. Then using the arrow keys scroll to "Reset Maintenance Count" ("Maintenance Count Value" only allows you to view the page count). To exit Diagnostics Mode just cycle the power.

Optra T610/12/14/16 Lexmark T520/22, T620/22, T630/32/34

Press and hold down the [Select] and [Return] keys while powering on the printer, hold these buttons until the display reads "Performing Self Test." If the display reads "80 Schedules Maintenance, press the [Go] to continue past this message and access the Configuration Menu. Press the menu button until the display reads "Reset Maint Cnt" on the second line of the display and press the [Select] button. The top line of the display should now read "Reset Maint Cnt" and the second line will read "Reset" and press the [Select] button. This will reset the counter. To exit out of the "Configuration Mode" cycle the power.

Lexmark T640/42/44

Press and hold the [Checkmark] and the [right arrow] button while powering on the printer. When "Performing Self Test" appears in the display, release the buttons. The "Config Menu" will appear in the display. Use the down arrow to scroll through this menu until you see "Reset Maint Cnt" and press the [Checkmark]. The display will read "Reset." When this happens press the [Checkmark] button again, this will reset the maintenance counter. To exit out of this menu, just cycle the power on the printer.
